Consensus layer milestones and relevant devnets

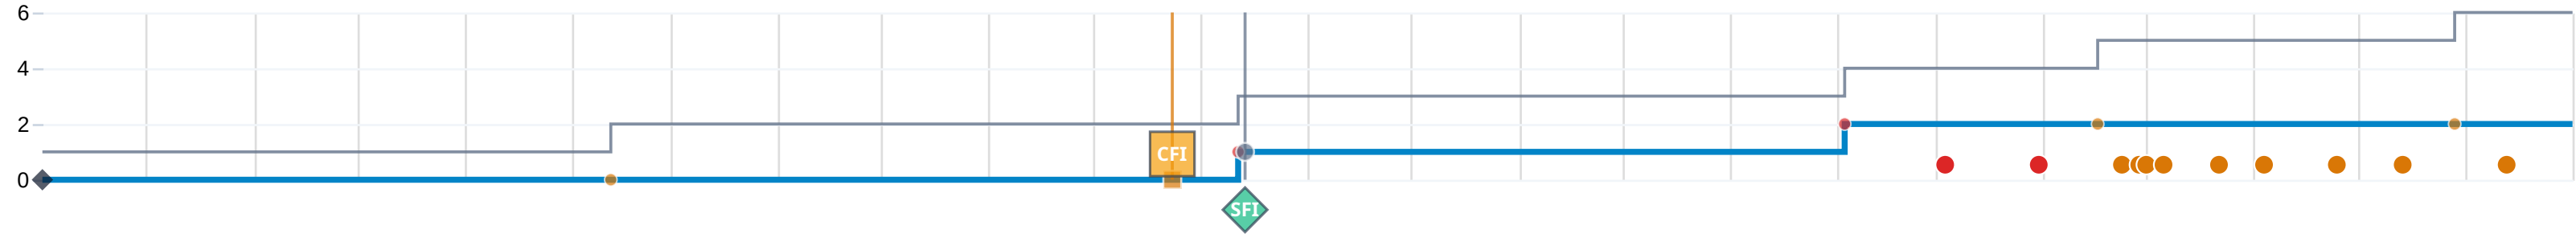

Consensus layer EIP revision histories

Primary line: cumulative substantive post-creation revisions. Faint line: all post-creation revisions.
Filled inclusion markers are state transitions; open gray markers preserve same-state records.
Triangles at panel bottoms are relevant devnets; lower opacity denotes medium-confidence participation.

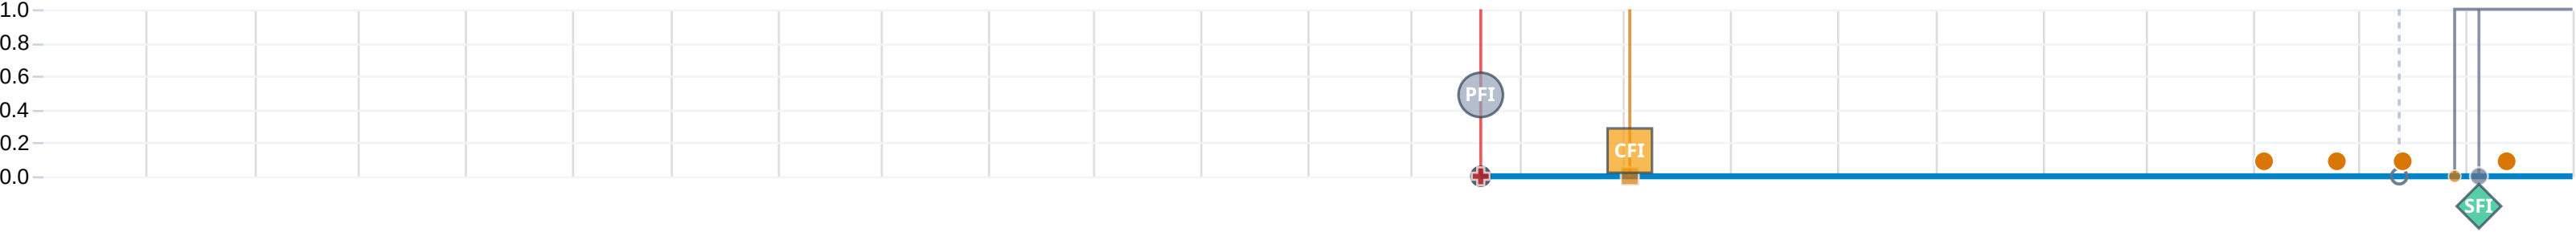

EIP-7688 · Forward compatible consensus data structures

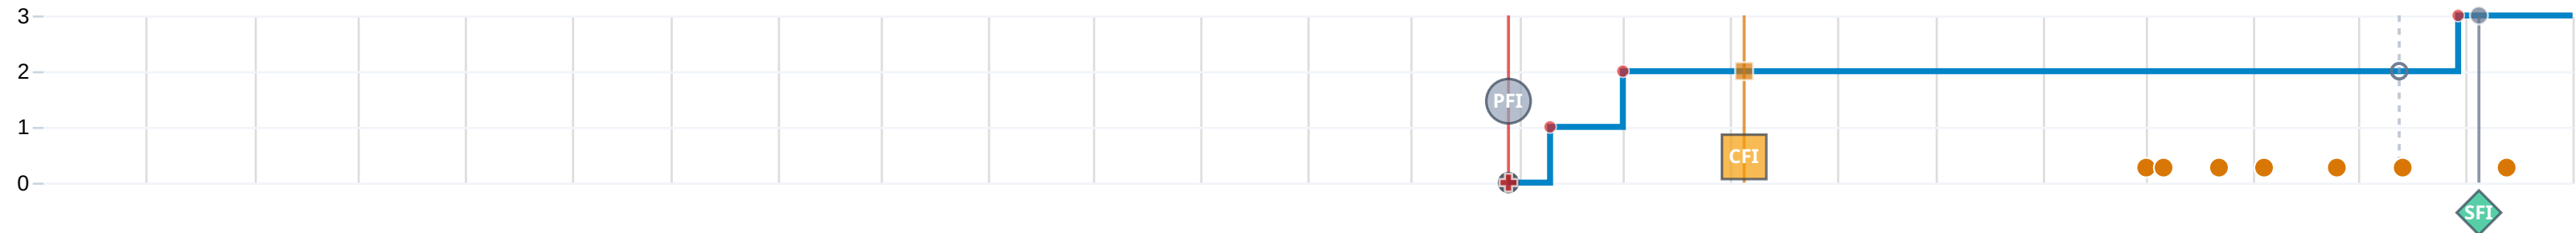

EIP-7732 · Enshrined Proposer-Builder Separation

EIP-8045 · Exclude slashed validators from proposing

EIP-8061 · Increase exit and consolidation churn

EIP-8282 · Builder Execution Requests
